### COX Live Drive

On many of our models, you have the choice of two transmissions including our legendary COX Live Drive with its simple toe/heel, forward/reverse direct delivery that's so easy to maintain due to minimal moving parts. That's the Owen Cox legacy.

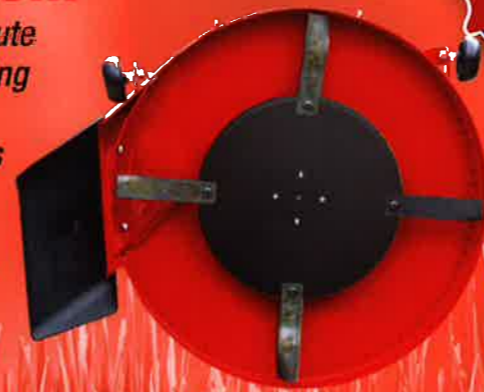

### COX Cutting Deck

Laser cut parts, robot welded, our fully fabricated BlueScope steel decks are reinforced with an additional welded steel skirt, built to last and protect against thrown objects and unexpected impact.

### COX Grass Discharge System

Super wide side discharge chute gives a constantly clear opening even in wet conditions. Heavy duty swing back blades absorb shock, resist damage and are easy to access for changing. Plus our Mulching kits (shown) are available on all deck configurations.
